

IN THE SPECIFICATION

Please replace the paragraph on lines 21-28 on page 4 with the following paragraph (the changes in the Specification are shown with ~~strikethrough~~ for deleted matter and underlines for added matter).

--

Non-limiting examples of other acceptable fluoropolymers are polytetrafluoroethylene micropowder, polychloro-trifluoroethylene (PCTFE), ethylene-chlorotrifluoroethylene copolymer (ECTFE), ethylene-tetrafluoroethylene copolymer (ETFE), tetrafluoroethylene (TFE) and perfluoro (ethyl vinyl ether) (PEVE) copolymer (~~PFA~~), TFE and perfluoro (propyl vinyl ether) (PPVE) copolymer (PFA), polyvinylfluoride (PVF), and polyvinylidene fluoride (PVDF). The fluoropolymer component may also include comonomer modifiers that improve selected characteristics.
